DETAILED ACTION

Response to Amendment

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Double Patenting

Claims 32, 35, 36, 38, 41, 42, 44, 47, 48, 50, 60, 66, 72 and 78 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 9, 15, 17, 18, 19, 27, 37, 46, 57, 66 of U.S. Patent No. 6,274,887 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because it is obvious that a gate electrode will have more than a sidewall and that it is well known to provide a pair of sidewalls on the gate electrode.

Conclusion

3. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
